

Defence Exim Portal

DSC User Manual

- 1) Download the latest version of [Browser Signing Solution](#) from the official website and install.

It is quite easy to download and install the PKI application on your system. All you need to do is just click on the button attached below. Follow the on-screen instructions to install this application and experience the protective, quick, and flexible signing operation.

 **Download Now**

- 2) Make sure to run the Software provided by Your DSC (OEM).
- 3) Launch/start the **Browser Signing Solution** software by clicking on the icon on the desktop. Connect Your DSC Token into PC/Laptop.

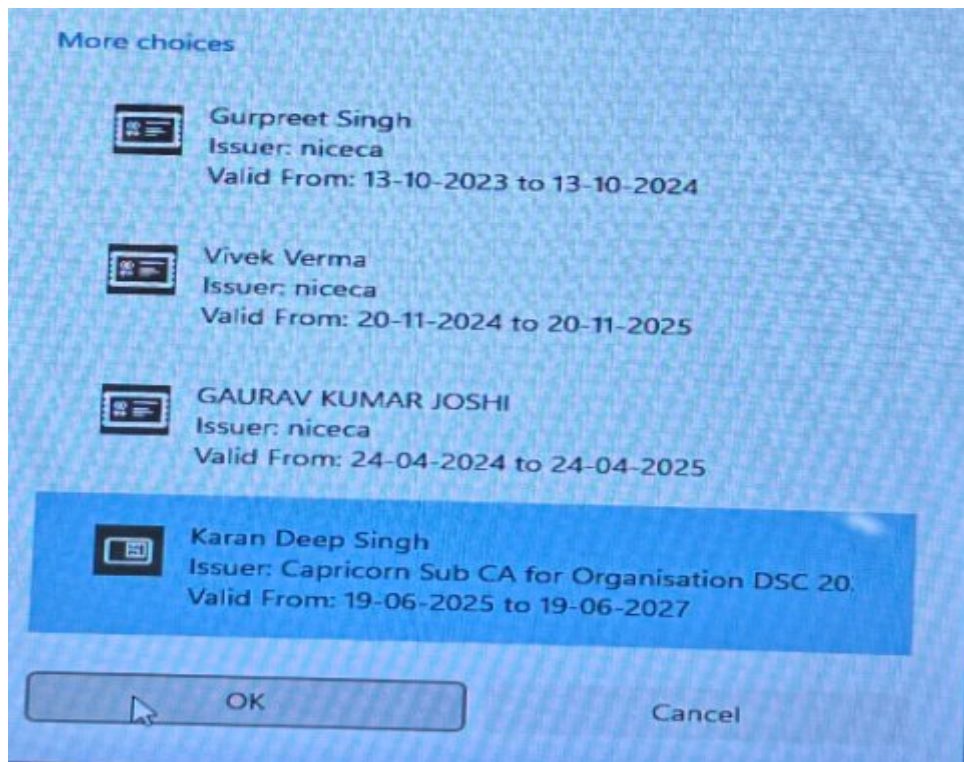

5) Click On “Submit With DSC” or ”Final Submit” during filling of application or during submitting SMLDI compliance annexure data.

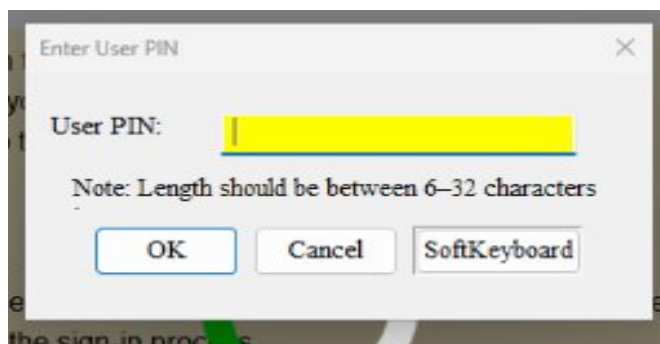

6) A prompt will appear as below. Press Ctrl + Alt + Delete as suggested.

7) Select your registered **username** from the drop-down list which will appear as below:

8) Enter your **DSC User Pin** and click **OK** to proceed.

9) If the User PIN is correct, then User will be directed to the portal with application status as submitted.
